NEW We welcome the ✓ adoption of the proposal for continuing the Partnership for Research & Innovation in the Mediterranean Area @PrimaProgram, which aims to develop solutions for a more sustainable management of #water & #agri-#food systems in the 🍒 Mediterranean basin.

1. adj. Que se puede sostener. *Opinión, situación sostenible.*

2. adj. Especialmente en ecología y economía, que se puede mantener durante largo tiempo sin agotar los recursos o causar grave daño al medio ambiente. *Desarrollo, economía sostenible.*

The four pillars of sustainability

Introducing the four pillars of sustainability; Human, Social, Economic and Environmental.

© RMIT University 2017

What is a simple definition of sustainability?

Sustainability consists of fulfilling the needs of current generations without compromising the needs of future generations, while ensuring a balance between economic growth, environmental care and social well-being. 6 abr 2022

What is the European Green Deal?

December 2019
#EUGreenDeal

The European Green Deal is about **improving the well-being of people**. Making Europe climate-neutral and protecting our natural habitat will be good for people, planet and economy. No one will be left behind.

The EU will:

Become climate-neutral by 2050

Protect human life, animals and plants, by cutting pollution

Help companies become world leaders in clean products and technologies

Help ensure a just and inclusive transition

What we are working on

Climate

Becoming the first climate neutral continent by 2050

Energy

A clean and efficient energy transition

Environment and oceans

Protecting our biodiversity and ecosystems

Agriculture

A healthy food system for people and the planet

Transport

Providing efficient, safe and environmentally friendly transport

Industry

An industrial strategy for a competitive, green and digital Europe

Research and innovation

Its role in driving transformative change

Finance and regional development

Sustainable investments to deliver the European Green Deal

New European Bauhaus

A creative and interdisciplinary initiative that connects the European Green Deal to our living spaces and experiences

Circular Economy Action Plan 2020* (adopted 11/03/2020)

- **Changing how we produce and consume:** New Circular Economy Action Plan shows the way to a climate-neutral, competitive economy of empowered consumers.
- **Focus on the sectors that use the most resources** and where the potential for circularity is high.
 - electronics and ICT
 - batteries and vehicles
 - packaging
 - plastics
 - construction and buildings
 - food
 - water
 - nutrients
 - textiles

*https://ec.europa.eu/environment/strategy/circular-economy-action-plan_en

Circular Economy Action Plan 2020 - Timeline

Circular Economy Package 2015: Implementación

En 2019, Circular Economy Action Plan se había completado

Horizon 2020.-

- Dedicated call : "Industry 2020 in the circular economy", (€650 million in 2016 -2017)
- Focus Area "Connecting economic and environmental gains – the Circular Economy", (€940 million calls in 2018-2019-2020)

...y otras acciones

EU strategy for sustainable and circular textiles

Aim.- Create a **greener, more competitive sector** that is more resistant to global shocks

Commission's 2030 Vision for Textiles.-

- **all textile products placed on the EU market** are durable, repairable and recyclable, to a great extent made of recycled fibres, free of hazardous substances, produced in respect of social rights and the environment
- **"fast fashion is out of fashion"** and consumers benefit longer from high quality affordable textiles
- profitable **re-use and repair services** widely available
- the **textiles sector is competitive, resilient and innovative** with producers taking responsibility for their products along the value chain **with sufficient capacities for recycling and minimal incineration and landfilling**

©Gettyimages/Srdjanns74

Zero Pollution Action Plan → Zero pollution for 2050

Key 2030 targets.-

- improving **air quality** to reduce the number of premature deaths caused by air pollution by 55%;
- improving **water quality** by reducing waste, plastic litter at sea (by 50%) and microplastics released into the environment (by 30%);
- improving **soil quality** by reducing nutrient losses and chemical pesticides' use by 50%;
- reducing by 25% the EU ecosystems where **air pollution** threatens biodiversity;
- reducing the share of people chronically disturbed by **transport noise** by 30%, and
- significantly reducing **waste generation** and by 50% residual municipal waste

Estrategia Industrial Europea

Marzo 2020: Un nuevo modelo de industria para Europa

Actualización 2021:
Autonomía estratégica abierta

Green Deal Industrial Plan (2023):

European Commission @EU_Commission
EU official organization

To grow, our net-zero industries need the right framework. It has to be simpler and more predictable.

We will therefore propose a Net-Zero Industry Act.

It will focus on key technologies for the shift to net zero, speed up permitting and incentivise multi-country projects.

[Traducir Tweet](#)

Critical Raw Materials Act

EUROPEAN CRITICAL RAW MATERIALS ACT

SETTING PRIORITIES

List of Critical Raw Materials

- It identifies raw materials which are important for the whole European economy and face a high risk of supply disruption

List of Strategic Raw Materials

- It identifies a list of raw materials characterised by high strategic importance and projected global supply/demand imbalances

SETTING 2030 BENCHMARKS FOR STRATEGIC RAW MATERIALS

EU EXTRACTION

At least **10%** of the EU's annual consumption for extraction

EU PROCESSING

At least **40%** of the EU's annual consumption for processing

EU RECYCLING

At least **15%** of the EU's annual consumption for recycling

EXTERNAL SOURCES

Not more than **65%** of the EU's annual consumption of **each strategic raw material at any relevant stage of processing** from a single third country

Policy context for SSbD

The EU Green Deal

Zero pollution

Climate neutrality

Circular economy

Chemicals Strategy for Sustainability (CSS)

Strengthen the protection of human health and the environment

- driving innovation to design and develop safe and sustainable chemicals and materials
- phase out the **most harmful substances** and
- substitute, as far as possible, **substances of concern**, and otherwise minimise their use and track them

CSS Action Plan

Develop safe and sustainable-by-design (SSbD) criteria for chemicals

Safe and Sustainable by Design chemicals and materials

Review of safety and sustainability dimensions, aspects, methods, indicators, and tools

JRC TECHNICAL REPORT

Safe and Sustainable by Design chemicals and materials

EN

COMMISSION RECOMMENDATION

of 8.12.2022

establishing a European assessment framework for 'safe and sustainable by design' chemicals and materials

EN

EN

Important information

- SSbD is an **R&I approach** to promote use of the latest scientific knowledge, **harmonize assessments** and to meet ambitious levels for **safety and sustainability in innovation**.
- SSbD is **voluntary** and promoted **within R&I actions** across EU research programmes, especially Horizon Europe. Member States, industry, academia and RTOs are invited to promote the use of SSbD in innovation.
- **SSbD is neither a regulation, nor mandatory**

HE: de la Base Legal a los Programas de Trabajo

Horizon Europe - 1st Strategic Plan (2021-2024)

Four key strategic orientations for greater impact

Promoting an open strategic autonomy by leading the development of key digital, enabling and emerging technologies, sectors and value chains to accelerate and steer the digital and green transitions through human-centred technologies and innovations

Restoring Europe's ecosystems and biodiversity, and managing sustainably natural resources to ensure food security and a clean and healthy environment

Making Europe the first digitally enabled circular, climate-neutral and sustainable economy through

the transformation of its mobility, energy, construction and production systems

Creating a more resilient, inclusive and democratic European society, prepared and responsive to threats and disasters, addressing inequalities and providing high-quality health care, and empowering all citizens to act in the green and digital transitions

Clúster 1, Salud .- Impactos Esperados = “Destinations”

1. Mantenerse sano en una sociedad que cambia rápidamente

2. Vivir y trabajar en un ambiente que promueva la salud

3. Hacer frente a las enfermedades y reducir la carga de la enfermedad

4. Garantizar el acceso a una atención sanitaria innovadora, sostenible y de alta calidad

5. Desplegando todo el potencial de las nuevas herramientas, tecnologías y soluciones digitales para una sociedad sana

6. Mantener una industria de la salud innovadora, sostenible y competitiva a nivel mundial

Clúster 2, Cultura, creatividad y sociedad inclusiva

Impactos Esperados

7. Democratic governance is reinvigorated by improving the accountability, transparency, effectiveness and trustworthiness of rule-of-law based institutions and policies and through the expansion of active and inclusive citizenship empowered by the safeguarding of fundamental rights.

8. The full potential of cultural heritage, arts and cultural and creative sectors as a driver of sustainable innovation and a European sense of belonging is realised through a continuous engagement with society, citizens and economic sectors as well as through better protection, restoration and promotion of cultural heritage.

9. Social and economic resilience and sustainability are strengthened through a better understanding of the social, ethical, political and economic impacts of drivers of change (such as technology, globalisation, demographics, mobility and migration) and their interplay.

10. Inclusive growth is boosted and vulnerabilities are reduced effectively through evidence-based policies for protecting and enhancing employment, education, social fairness and tackling inequalities, including in response to the socio-economic challenges due to the COVID-19 pandemic.

Clúster 3, Seguridad.- 6 “Destinations”

STRENGTHENING SECURITY RESEARCH AND INNOVATION

Clúster 4. Digital, Industria y Espacio.– “Destinations”

CLIMATE NEUTRAL, CIRCULAR AND DIGITISED PRODUCTION

INCREASED AUTONOMY IN KEY STRATEGIC VALUE CHAINS FOR RESILIENT INDUSTRY

WORLD LEADING DATA AND COMPUTING TECHNOLOGIES

DIGITAL AND EMERGING TECHNOLOGIES FOR COMPETITIVENESS AND FIT FOR THE GREEN DEAL

OPEN STRATEGIC AUTONOMY IN DEVELOPING, DEPLOYING AND USING GLOBAL SPACE-BASED INFRASTRUCTURES, SERVICES, APPLICATIONS AND DATA

A HUMAN-CENTERED AND ETHICAL DEVELOPMENT OF DIGITAL AND INDUSTRIAL TECHNOLOGIES

Expected Impacts → Destinations (D1-D6)

Transition to a climate-neutral and resilient society and economy

- D1 – Climate science and responses

Clean and sustainable transition of the energy and transport sectors towards climate neutrality

- D2 – Cross sectoral solutions

More efficient, clean, sustainable, secure and competitive energy supply

- D3 – Energy supply

Efficient and sustainable use of energy, accessible for all

- D4 – Energy use

Towards climate-neutral and environmental friendly mobility

- D5 – Solutions for all transport modes

Safe, seamless, smart, inclusive, resilient, climate neutral and sustainable mobility systems for people and goods

- D6 – Transport and mobility services

Clúster 6. Alimentación, bioeconomía, recursos naturales, agricultura y medioambiente

Strategic Plan (2021-2024)

Impact 1 Climate neutrality and adaptation to climate change

Impact 2 Preservation and restoration of biodiversity and ecosystems

Impact 3 Sustainable and circular management of natural resources; tackling pollution; bioeconomy

Impact 4 Food and nutrition security for all from sustainable food systems from farm to fork

Impact 5 Balanced development of rural, coastal and urban areas

Impact 6 Innovative governance models enabling sustainability, environmental observation

Work Programme (2021-2022)

- Destination: Land, oceans and water for climate action

- Destination: Biodiversity and ecosystem services

- Destination: Circular economy and bioeconomy sectors
- Destination: Clean environment and zero pollution

- Destination: Fair, healthy and environmentally-friendly food systems from primary production to consumption

- Destination: Resilient, inclusive, healthy and green rural, coastal and urban communities

- Destination: Innovative governance, environmental observations and digital solutions in support of the Green Deal
